Subject: Federal Water Reuse Action Plan
Attachments: Draft Discussion Framework for a Water Reuse Action Plan External V1.7_2-1-2019.docx

Hi Folks- Darrin, good speaking with you today. As I mentioned, we are getting started developing a federal Water Reuse Action Plan that is intended to better align and organize federal agency actions in support of water recycling/reuse/capture/resource recovery. To help ensure we head in the right direction(s), we want to talk with some "in the know" folks like you two to get advice about what we should focus on (and perhaps what we should stay away from. You mentioned you and Randy might be available the afternoon of February 28th for a call with Jeff Lape (EPA HQ Action Plan lead senior manager) and me. May I propose 2 PM for a call? Please let me know if that would work for you and, if so, a number we should call at that time.

To give you a sense of what we are thinking about, please see the attached draft Action Plan Framework document. Please don't share this quite yet- it has not yet been released publicly. I understand EPA Asst. Administrator David Ross plans to announce the formation of this action plan at a reuse meeting in SF on 2/27 (btw, Felicia will be appearing at this meeting too). <https://igel.wharton.upenn.edu/event/the-resource-revolution-of-water-reuse/>
